

Babcock Australia Global Supply Chain Program

We understand the vital role that Australian industry and Australian small and medium enterprises (SMEs) play in the nation's defence programs.

As part of our commitment to Australian industry, Babcock has joined the Global Supply Chain (GSC) Program by the Australian Government to introduce more Australian suppliers into international supply chains. Our dedicated delivery team is strategically situated in both Australia and the United Kingdom to provide continual advocacy at a global level and identify gaps in that have the potential to be filled by Australian supplier capability.

Babcock's global supply chain currently reaches more than 10 countries cross Marine, Aviation, Mission Systems, Nuclear and Land domains across defence and civil markets, and through the GSC Program we will build further depth into the nation's industrial base creating increased sovereign capability.

Under the GSC Program Babcock is seeking exportable technologies in the following areas:

Marine Sustainment

- › Trades and repair services for visiting vessels.

Logistics Support

- › Logistics systems for personnel and equipment.

Soldier Systems

- › Tactical support and personal protection equipment.

Safety and Quality Assurance

- › Isolation management and assurance systems.

Autonomous Capabilities

- › Design and manufacture of autonomous platforms

Submarine Services

- › System manufacturing and capability enhancement.

Aviation

- › Ground support, modifications, and training.

Ship Build

- › Manufacturing and fabrication of maritime systems.

Vehicle Fleet Services

- › Vehicle modifications and support.

Innovative Technologies

- › Robotics, AI, and system integration.

Civil Industry Technologies

- › Nuclear safety and facility management, renewable energy, liquid gas equipment systems and rail.

High Frequency Communications

- › Communication and power amplifier systems.

Repair and Maintenance Services

- › End-to-end services and marine support.

Advisory services and in-country export opportunity assistance

Our GSC team comprises experienced specialists who can offer subject matter expert assistance in quality, security and engineering support, as well as help you navigate export controls.

With GSC representation in the UK and Australia, we can facilitate meetings, organise site visits and provide in-country business development support for your business.
